Objective

To excite incoming and prospective students about the Ohio University campus, student life, and wide-array of opportunities that will be available to them through my personal involvement, experiences, and love for this school.

Experience

TUTOR, ACADEMIC ADVANCEMENT CENTER: OCTOBER, 2014 - PRESENT

I spend 10-12 hours a week at the Alden Library offering tutoring sessions for those who need additional help in math/computer science courses. As a tutor, it is required that I communicate well with fellow students, have patience for those who work at a slower pace, and accommodate to all styles of learning.

CATERER, BAKER CATERING: MAY - OCTOBER, 2014

While working as part of the catering team for Ohio University, I gained a familiarity with all areas and buildings of the campus. The job required me to aid in setup, serving, and cleanup while maintaining a polite manner and pleasant atmosphere for our guests.

Education

CANFIELD HIGH SCHOOL - 2013

3.5 GPA

OHIO UNIVERSITY - CLASS OF '17

Computer Science, Russ College of Engineering
3.6 GPA

Skills

Computer programming, proficient with DARS reports, effective communicator, ability to work both independently and in a group atmosphere, enthusiastic worker.
